

SMALL FARM? we can help.

FINANCIAL ASSISTANCE NOW AVAILABLE TO SMALL ACREAGE CROP AND LIVESTOCK PRODUCERS TO IMPROVE SOIL HEALTH

Applications accepted continuously at the St. Helens Service Center

Columbia Corridor Soil Health Improvements

Open to farmers and ranchers along the Columbia River Corridor in Columbia County. NRCS and partners will give you the technical knowledge and financial incentives you need to improve soil health on your operation. Participation is entirely voluntary.

When you take better care of your soil by adjusting your management practices, you will also see other benefits like improved forage for livestock and wildlife, enhanced water quality and stream habitat, and increased productivity and profitability of your operation.

By participating in this project, you can perform several conservation activities on your small farm or ranch such as cover crop plantings, mulching, tree/shrub plantings, fencing and more.

To sign up or for more information, contact:

DON MEHLHOFF, District Conservationist
35285 Millard Road,
St. Helens, OR 97051
Phone: (503) 438-3146
Email: Don.Mehlhoff@or.usda.gov
